

SATURDAY EVENING. SEPT. 21, 1907

ACCORDING to a dispatch from Pittsburg. Ps., ten dollars a day is the wage offered to men who will volunteer to murder Pittsburg's millionaries and burn fence surrounding the old cathedral site, now owned by H. C. Frick. The appeal for blood was posted directly opposite the Frick building. The notice was worded as follows:

Anarchists, Notice: Murder the rich and burn their homes. Too long have the working people of this city been trampled on by the rich. How easy it is for them to enjoy wine, women, and song, when they grind out the lives of the poor to add to their riches. How it is for them to buy flowers and themselves by sacrificing men's We want agents to murder the rich and burn their homes. Wages, \$10 a day. If you are the right kind of a man go to the corner of Wood street and Fifth avenue, and a man will give you the proper sign.

Why the authorities do not corral all individuals who are preaching assassination in this country is hard to under-

JUDGE THOMAS W. HARRISON, of the Circuit Court, has established the whipping post at Woodstock, in Shenandoah county, and for the first time in the history of the town convicts in the jail have been forced to work on the streets. Four convicts from Winchester, now in the Woodstock jail, were put to work on the streets. One of them, a negro, rebelled and cursed the officers. Judge Harrison directed the jailer to give the refractory prisoner 40 lashes on his bare back. The man returned to work. With few exceptions the prisoners in all the jails should be compelled to work, but the whipping post should not be only for those who refuse to do so. The jails would have fewer prisoners if petty thieves, wife besters and other vicious persons were properly whipped instead of being confined at the public expense.

THE London Church Missionary Society has received information that it is estimated that 2,000,000 persons perished by famine in Kiang-Su and neighboring provinces during the first six months of this year. The starving people have been reduced to subsisting on leaves and grass, and are even eating white clay. There are many chronic complainers and murmurers in this country, most of whose carpings are superinduced by annoyances and not serious calamities, which beset some other climes. Those who read the above instead of being active in propagating land he inhabitants of which have been blessed in basket and store,

IMMIGRATION to America, according to present indications, will be heavier this year than ever before in the history os the country. During August admitted oliens from all countries numbered 98,825 an increase of 21 per cent. over August, 1906, and 56 per cent. over August, 1905. During the last six months the total immigration from all countries was 819,951, an increase of 14 per cent, over the same period last year. The immigration from Russia is increasing and is greater in number than from any other country. One of the great dangers threatening this country now is the number of "undesirable citizens" who are flocking to its shores. Every precaution should be taken to preven the landing of such immigrants,

A YOUTH named William Kammann, who resides in Paulsboro, N. J., is in juil a raving maniac. Kammann is a victim of dime-novel reading. The unfortunate vouth has a mania for card playing, disrobing and demolishing tables in dining rooms. It has often been observed that the printing press, while a blessing to some is a curse to others. The world is kept flooded with flimsy reading matter which is devoured by young and old slike. The taste for history and the higher class of literature having been stunted by cheap novels and similar publications, instances similar to the above are becoming common.

From Washington. [Correspondende of the Alexandria Gazette,] Washington, Sept. 21.

The report that Wu Ting Fang will probably be returned to the United States, as Chinese minister, was received here with unusual interest. "Wu is the most popular diplomat that ever struck town. He made a hit with all classes, from officials of the administration to summer girls at Atlantic City. No social function at the capital was ever considered quite complete without the presence of this artless, but entertain-ing Celestial. Despite his butterfly air, Wu accomplished more for China while he was here than any other representative from that country. He was greatly admired by the Secretary of State, John their homes. To occure volunteers a Hay, who was amused rather than notice was yesterday posted on the shocked by some of the unconventional methods be employed. When Wu appeared before an appropriations commit-tee at the Capitol, on his invitation, and proceeded to lecture the members on their duties, he fractured all precedents. Other diplamats threw up their hands in horror. Wu was very sorry, he really didn't know any better, so was forgiven. Probably his greatest service was during the siege of Pekin by the Boxers, when he got through the first cablegram to th's government announcing the safety of minister Conger and

the other imprisoned diplomats.

In answer to a complaint to W. F. Roberts, commander of the Missouri Naval Reserves, that the U. S. S. Huntress which was recently turned over to that organization at Pensacola was in poor and unseaworthy condition and without ammunition, it was stated at the Navy Department today the ship on in-spection showed herself to be in fair con-dition and the department deemed her suitable for the work desired of her in the Mississippi.

Beginning with Tuesday, October 1, balloon work is to be taken up with all earnestness by the army and a regular balloon corps will soon be organized. A drill will be given on the vacant lot adjacent to the gas works at Twelfth and M streets southeast, the new big army balloon America, being the subject of the drill. On Tuesday a class will be given their first experience in ascension. This will be the first of a series of flights to be made in this city within the next three weeks.

"I am able to look at life from the natural aspect at last" was the response Secretary of State Root made when he was welcomed back to his office today. NO TROUBLE IN ROME. Armed men in the service of the Pope were on guard all day long at the entrances of the apostolic palace and the the seeds of discontent, should render Vatican at Rome, but there was no acthanks that their lot has been cast in a tive outbreak of anti-clercial sentiber 20, the thirty-seventh anniversary of the occupation of Rome by Italian troops and the fall of the temporal power of the papacy, passed without the fulfillment of any fears entertained by the Vatican that the Italian people would show by deeds of violence their

ill feelings against the church. There were two big parades yesterday afternoon through the atreets of the city, and the red shirts of the Garibaldian veterans were conspicious in the throng. The first parade was official, and composed of the members of 50 local associations. The leaders laid wreaths upon the tombs of Victor Emmanuel II. and King Humbert, and decorated with flowers the tablet at the Ports Pia. which commemorates the entry of the Italian troops in 1870. The other parade was popular and unofficial. It marched past the Capitol, carrying inscribed with anti-clerics sentiments. Returning the crowd raises red flag over the equestrian statue of Marcus Aurelius.

During the day the police seized a number of antimonarchist proclamations and the walls of the city were pla carded with appeals to the people to "complete the anti-clerical victory at the coming muncipal election,"

STRANGLED TO DEATH.

Miss Lillian White Grant, a kindergarten teacher in the Chicago public schools, was found dead in bed yesterday, and the indications are that she was murdered. The room showed signs of a strug gle, and around the woman's throat was ightly twisted piece of linen, with which she had been choked to death.

Mrs. Grant's pocketbook, rifled of its contents, was found later in the day in the office of a physician, 50 blocks distant from the house in which she lived. The police are looking for a colored man who did work around the neighborhood. on the theory that he is the murderer post mortem examination revealed that the woman's neck had been broken fused to grant to the daughters of the by the cloth wound about her throat and that there were deep marks of fingers on the neck.

The general strike yesterday was called in sympathy with the shoe cut-ters' strike. The lasters, edge makers, trimmers, bottomers, stock fitters and stichers, who have walked out in sympathy with the cutters are only partially organized. They have formulated no bill of grievances against the companies, but it is probable they will make demands as a consideration for returning to work.

STANDARD OIL COMPANY.

Records of the stockholders of the Standard Oil Company of New Jersey, laid bare in New York yesterday at the hearing of the government's suit for the dissolution of the alleged oil combine disclosed the fact that John D. Rockefeller owns 247,692 shares, or nearly five times as much stock as any other individual shareholder, and that he and his associates who signed the trust agreement in 1882 still control a majority of the Standard Oil steck. Measured by the present market price of \$440 a share, the holdings of Mr. Rockefeller in the Standard Oil Company have a value of \$109,000,000. The stockholders record of August 17, 1907, shows that the University of Chicago is the owner of 5,000 shares of Standard Oil stock:

The depreciation in the price of Stand ard Oil stock within the past 10 years, about the time the sgitation against the company began, has been more than \$400 a share. Since the legal proceed-ings against the Standard Oil Company of New Jersey were instituted the stock has steadily declined until it is now around \$440. This represents a loss over \$100,000,000 on the holdings of John D. Rockefeller. The shrinkage in the market value of the stock also affects the University of Chicago to the extent of about \$2,000,000.

Some interesting facts concerning the induct of the marketing of the Standard's product were developed yesterday when it was testified by Mr. Tilford that a committee controlled the domestic trade. Mr. Tilford stated that the United tates was apportioned in districts and that the selling companies assigned to those districts confined their operations to the territory assigned to them.

The accountants for the governme now at work preparing data will be ready Their report, it is to report next week. declared, will enable the government to develop in the hearing that since the inception of the Standard Oil trust in 1882, up to the present time, the total profits of the oil combine have been between \$800,000,000 and \$900,000,000.

PIECES OF COMET?

Residents of the borough of Camber cell which is in the southeastern part of London, are perturbed over a remarkable phenomenon, the occurrence of which is attested by several eyewitnesses, who say that at 9 o'clock yesterday morning three bright, starlike objects fell from the heavens, impacting on the street with three sharp detonations louder than pistol shots. The road shows traces of the impact.

The paving stones are indented and scorched. An eyewitness picked up a bling rusty iron, and burned his hands painfully in so doing. According to his story, the largest lump was three-quarof an inch by half an inch in size. But in a few hours it crumbled into smaller particles or partly disappeared by radiation

Among the various theories of the phenomenon that are advanced is that these bolts from the blue are some of the wreckage left behind by the comet which was recently visitle to the naked eye, and through whese train of countles fragments the earth passed on September A mystifying feature of the partleles that have been saved is their greasy nature. They show greasy patches through the paper in which they are

ELEVEN MEN KILLED.

By the plunging of a cage 275 feet down the shaft of the Jones and Laughlin Steel Company's mine at Negaunee, Mich., yesterday 11 men were killed and seven fatally injured.

The cage was making its first descen for the day when the brake on the hoisting drum gave way. Two other men sprang to the assistance of the one at the brake wheel, but their combined efforts did not avail, and the wire cable conunreel from the drum like s weighted thread from a lubricated bobbin. The cage shot down 200 feet before a kink in the rushing cable caused it to part. Then the cage dropped to the bottom of the shaft, the safety catches failing to separate. The surging of the cable in its mad flight tore out part of the side of the enginehouse and ripped out several sheaves about the

shafthouse. Thousands of persons soon congrega ed about the mine shaft. In the crowd were wives and children of the 200 men employed in the mine and many heartrending scenes were enacted.

Follow Each New Discovery of Science The great strides that medical science has made in the last few years is due to the germ theory. When the germ of a disease has been discovered, the doctors have not been slow in finding a drug to kill it. In a few years it will be rare to find a bald-headed man or woman. The falling out of hair is due to a dandruff germ, and now is has been discovered how to kill the germ. The remedy used is called Newbro's Herpicide. Its success has been marvelous. Not a failure has been so far reported. It is also a delightful hair dressing free from oil or sticky substances. Try it and be convinced of its actual merit. Sold by leading druggists. He was revived and sent to his home at Fort Myer Heights, Alexandria county. The track was torn up for several yards, and traffic was blocked ten hours.

George A. Peters, who was to have been hanged at Hillsville, yesterday, for the murder of Rev. Joseph Easter, a Dunkard minister, has been respited for thirty days by Governor Swanson, who will be petitioned by commute the sentence to life imprisonment. Peters was a whisky "blockader" and killed Easter because of the latter's warfare against the "blockaders" of the mountains. There is an impression at Hillsville that Peters was merely the tool of other men who had planned to get rid of Easter and upon this ground the petition for commutation is receiving signers.

When the General Assembly meets in January it will be called upon to increase the amount of salary or income which is exempt from taxation. The law requires that all who receive more than \$600 a year shall pay an income tax of 1 per cent. The law is not observed with any degree of uniformity, there being many who evade the law by declining to answer or forgetting to see that section of the tax list, Grand juries have been considering such cases in many sections of the State, the result being suprising, the taxpayers in many instances having come forward with the request that they be allowed to amend their returns. The new law will place the sum to be exempt from \$1,000

ST. JOHN'S CHURCH WINS.

The vestry of St. John's Protestant Episcopal Church in Richmond is in control of the property on which the church stands and also of the lots immedlately to the rear of the church, decision was pronounced yesterday by Judge John H. Ingram, of the Law and Equity Court. 4

The case came up on a motion for an injunction to restrain the yestry from huilding a memorial hall on the lot. The council passed an ordinance refusing the ight to the vestry, and the vestry, actog under the advice of Judge David C. Richardson, began the preparation, and the foundation was begnn. Then the application for the injunction was made and the latter argued at great length.

Judge Ingram delivered a lengthly opinion, in which he hold that the city had never had control of the lot in question. The court held, however, that if a building were erected and any of the graves were covered the church would be required to mark the places with tablets or in such manner as to indicate where the bodies had been placed. This is one the most historical churches in America, being the one in which Patrick Henry made his famous speech.

COMMISSION FOR LYNCHBURG. A special committee appointed last spring by the Lynchburg City Council to consider the question of having the affairs of the city administered under a board, after months of study and con-sideration, has unanimously decided to recommend to the City Council that all of the boards, excepting the School Board, be abolished and that a commission of three, with the Mayor as its ex officio head, be provided for by a legislative amendment to the city charter.

It is proposed to model the commis sion largely after the commissioners of the District of Columbia and all of the administrative functions of the municipal government are to be left to it.

The committee will also recommen that the work of the police court be separated from the duties of the Mayor in order that he may give his full time to other duties of his office. There is hardly a doubt but the recommendations of the committee will prevail in both branches of the Council sion cannot be provided for until the General Assembly will amend the city charter next winter.

Alleged Strangler.

Zion City, Ill., Sept. 21.—By his own confession, Harold Mitchell, chief torturer at the death of Mrs. Letitia Greenhaulgh, aged and paralytic victims of the cruelties practiced by five Parhamites to expel "demons," is a strangler. Enough testimony was adduced by Coroner Taylor and Deputy Coroner Conrad in two hours to convince them that many deaths in Zion City that should have been investigated have been hidden by a cloak of religion. On Mrs. Greenhaulgh's throat were

found bruises made by fingers so strong that they almost burst the flesh.

The testimony showed that another victim, a Miss Young, who was choked to exorcise "demons," died several days to exorcise "demons," died several days after Mitchell administered the treat

It was shown that Mitchell's rece 'patients," among whom were the 12-rear-old son of Mrs. Louisa Schmidt, Mitchell's "chanter in tongues;" Hiran Annas, 16 years old, who suffered blood poisoning from a fourth of July accident, and an unidentified 9-year-old boy, whom Ohio detective, was at Staunton yesterday having in charge J. M. Shumate, of Augusta county, who is alleged to choke the yandal tide of the choke the yandal tide.

On the stand. Mitchell confessed tha at times he is seized by a bad spirit the throat. In the case of Mrs. Green-baulgh he said it made him strangle When he felt his fingers on her soft throat, he said, the spirit forced him to crush the bones of the larynx.

"As long as it moved under my fingers," he said, "I felt I had the demons and had to squeeze to get them out. Now, I know I did wrong, but the devil had me in his power and I had to." Coroner Taylor and State's Attorney Hanna say they have proof that dying persons have been tortured and their bodies kept for days in the hope that prayers, chanting "the gift of tongues" and incantations would restore them to

In almost every case objections of the officials to the holding of corpses has been met with the reply that the miracles were accomplishof "raising the dead" ed only after three days. Jennie Greenhaulgh, lying face downward on a bench in her cell, moaned:

"They bent her legs till they broke. Mitchell put his hand over her mouth when she tried to call us. When they tortured her we ignored her cries.'

Mother Protests Innocence. New York, Sept. 21 .- Protesting her nnocence of any murderous intent in shooting her young son, Curt, Mrs. Mar-garet Klein today told the police that the shooting was purely accidental, despite the fact that neighbors insist that she attempted to commit suicide after a quarrel with her husband and the son was shot while trying to wrest the gun from her. Mrs. Klein insists she was discharging a revolver in honor of the
